This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

LONDON:

'ISHER & STIDSTONE, 13, MOORGATE STREET, E.C.

1873.

BODLEIAN LIBRARY
6 JAN 85
OXFORD.

METHODS

FOR CALCULATING AMERICAN SECURITIES AT 4s. PER DOLLAR.

In this book the numbers at the top of the page represent the number of SHARES, but can be used for calculating STOCK, by taking 10 Shares as representing $1,000 Stock, and so on. To calculate 200, 300, 400, 500, or 1,000 Shares, it is necessary to multiply by 10, thus:—300 Shares, or $3,000 Stock @ 51, refer to price of 30 Shares, (£306. 0s. 0d. multiplied by 10) £3,060. 0s. 0d. is the answer; or the same amount of Stock at 51⅝ would be (£309. 15s. 0d. multiplied by 10) £3,097. 10s. 0d.

N.B.—Remember each 5s. represents, when multiplied by 10, £2. 10s. 0d.; 10s. represents £5. 0s. 0d., and 15s. represents £7. 10s. 0d.

To find the value of LESS THAN 10 SHARES or $1,000 Stock, divide by 10, thus:—4 Shares or $400 Stock at 55, refer to price of 40 Shares (£440. 0s. 0d. divided by 10) and £44. 0s. 0d. is the answer; or the same amount of Stock at 56⅝ (£453 divided by 10) £45. 6s. 0d. is the answer.

N.B.—The units in the £ when divided by 10 become FLORINS, and 5s., 10s., and 15s., respectively, the three fractions ⅓, ½, ¾ of a florin, or 6d., 1s., 1s. 6d.
